ETHICAL INVESTIGATIONS:

a) FIAP

By the sole act of submitting his/her images or files to a salon under FIAP Patronage, the entrant accepts without exception and with no objection the following terms:

- that the submitted images can be investigated by FIAP to establish if these obey to FIAP regulations and definitions even if the entrant is not a member of FIAP,
- that FIAP will use any means at its disposal for this undertaking,
- that any refusal to cooperate with FIAP or any refusal to submit the original files as captured by the camera, or failure to provide sufficient evidence, will be sanctioned by FIAP,
- that in case of sanctions following the non-compliance with FIAP regulations, the name of the entrant will be released in any form useful to inform the breaches of the rules.

IMPORTANT: Concerning digital entries, FIAP recommends that authors should preserve intact, with no alteration, the original metadata of images. In case of contestation for incompliance with FIAP regulations the fact of not being able to access this important data could mean that the author could be sanctioned.

Each author whose image shows any suspicions about the compliance with FIAP regulations or definitions can be requested by the organizer or by FIAP, to submit the original file (file containing the data recorded by the sensor, if so, the RAW file) plus the file of the image immediately before and immediately following the questionable image. If he/she failed to provide what is required, he can be sanctioned.

Persons who are found guilty of plagiarism are excluded lifelong from FIAP activities.

It is recommended to leave the EXIF data in the submitted files intact in order to ease eventual investigations. If at any time, it is determined in the reasonable discretion of the exhibition organizer or the judges before, during, or after the judging of an exhibition that an entrant has submitted entries where one or more images may fail to comply with these Conditions of Entry, including the stated definitions, the exhibition organizers reserve the right to delete the entry from the exhibition and void any or all acceptances or awards in connection with the exhibition. Fees may be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the exhibition organizers or the judges is final.

DISPUTES

In any case of dispute regarding compliance with the Conditions of Entry, payment of fees or matters pertaining to an image (such as receipt, acceptance, compliance, score or award), the decision of the organizers and judges to accept your application (or not) will be final. Violations and perceived violations of the Conditions of Entry may be reported to the various accreditation bodies and may result in a declination of your application to have your images included in this and other exhibitions.

DEFINITIONS

All entries shall conform to the stricter of these definitions for acceptances and awards to be validated by all the International Organizations granting recognition or patronage.

a) Salon Definitions:

In open sections, entrants can enter photos with any kind of theme: for example: portrait, people, nature, wildlife, landscape, architecture, still-life photography, digital imaging, HDR photos, etc. All acceptance eligibility shall be in accordance with the PID Star Ratings or the Galaxy/Diamond Ratings requirements as appropriate.

Monochrome images may not be entered in the **Open Color** Section. The color and monochrome versions of same image, regardless of title, cannot be entered in different sections of this Salon.

People Definition: Show us people in all situations, such as daily life, street photography, traditions, portrait, people at work, social events, human relations and etc. The main subject in the photo must be one or more humans.

Travel Definition: Photos in the Travel section shall conform to **FIAP Traditional Photo** and **Photo Travel** definitions.

Photo Travel definition: A Photo Travel image expresses the characteristic features or culture of a land as they are found naturally. There are no geographical limitations. Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not permitted. Close up pictures of people or objects must include features that provide information about the location.

Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene, and complete conversion to greyscale monochrome. Other derivations, including infrared, are not permitted. All images must look natural.

b) FIAP Definitions:

FIAP Monochrome definition:

A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey. A black and white work toned entirely in a single color will remain a monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand a black and white work modified by a partial toning or by the addition of one color becomes a color work (polychrome) to stand in the color category; such a work requires color reproduction in the catalogue of a salon under FIAP Patronage.

FIAP Traditional Photo definition:

A traditional photograph maintains the original image content with minimal adjustments which should not alter the reality of the scene and should appear natural. Rearranging, replacing, adding to or removing any part of the original image except by cropping is strictly forbidden.

FIAP Nature Definition:

Nature photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archeology, in such a fashion that a well-informed person will be able to identify the subject material and to certify its honest presentation. The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality. Human elements shall not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves. Scientific bands, scientific tags or radio collars on wild animals are permissible. Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible, as is any form of manipulation that alters the truth of the photographic statement.

No techniques that add, relocate, replace, or remove pictorial elements except by cropping are permitted. Techniques that enhance the presentation of the photograph without changing the nature story or the pictorial content, or without altering the content of the original scene, are permitted including HDR, focus stacking and dodging/burning. Techniques that remove elements added by the camera, such as dust spots, digital noise, and film scratches, are allowed. Stitched images are not permitted. All

allowed adjustments must appear natural to the viewer. Color images can be converted to greyscale monochrome. Infrared images, either direct-captures or derivations, are not allowed. Images entered in Nature sections meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with the subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.
